

Organisation on a Page

PROPOSITION

SRM takes a snapshot of your organisation and its operations, identifying the integral components and capabilities and evaluating the impact on the end customer.

SRM's Three-Phased Approach:

Carry out document reviews and interviews

Synthesise observations and hypotheses

Develop and deliver a snapshot of the organisation from all angles to key stakeholders

SRM's Organisation on a Page service allows for a top-down perspective on how customers view your organisation. It identifies dysfunctions and silos. It draws out evidence-based recommendations. And it provides visibility to make informed decisions.
